

## Additional Views Proposed

| Viewpoint   | Looking  | Justification  | Remarks  |
|---|--|--|--|
| Along road to Cressingham   | South across fields  | It is advantageous for those living along Richmond Road behind their houses on the western side, also for anyone walking along the road towards Gt. Cressingham.                                   | Agreed with respondent this is very similar to CV3. No further action                                  |
| 52 Hills Road   | West and South West  | The views are across open fields to the Swaffham Road in the West and to the church in the South West  | As CV5 except from other side of Hills Road and includes west view                                     |
| From Pound Hill looking view point CV1 looking northwest                              | North west   | Landscape quality, scenic quality and representative of local open farmland  | Need to check intrusion of old agricultural buildings Possibly compares with CV9 but from further away |
| 1. Richmond road near the bridge.<br>2. hole 12 golf course.                          | 1. View across the golf course from Richmond road and<br>2. from the Fairway of the 12 hole looking north. | These are views that for<br>1. shows the gap to Watton should be preserved and if the golf course was sold a developer could move in. and<br>2. This view shows the rural aspect of the landscape. | 2. Appears to be along north side of the brook   |
| From Pound Hill   | Towards the Mere   | Suspect that it is of archaeological significance  | As CV1   |
| Past the Terrace towards the Church.  | Northwards   | A sense of the Church's relation to the old village  | Need to find a viewpoint   |
| Ovington Road   | South towards golf course  | Rich in wildlife. Regularly see barn owls, there is a nest box which they use. Also foxes, roe and muntjac deer and bats.  | Need to find a viewpoint   |
| Bullock Shed Lane   | South and East towards St. Georges Church and over fields.   | This is a high point and offers panoramic views of the Breckland countryside   | Need to find a viewpoint   |
| Very bottom of Richmond road looking along Watton Brooke, and the landscape each side | East and West  | For birds and wildlife and also because it is in the separation gap  |  |
| Bullockshed Lane  | A westerly direction looking towards Cressingham Road  | It's open countryside as well as farming which describes where we live   | Need to find a viewpoint   |
| Ploughboy lane, mainly the view towards the houses on hills road(dolphin crescent)    | Both left and right  | To maintain the countryside feel to this section of the village, along with keeping the open field between ploughboy lane and hills road(dolphin crescent) which is a                              | As CV4 but more westerly   |

|   |   |   |                          |
|---|---|---|--------------------------|
|   |   | wonderful view, especially during a winters day.  |                          |
| Ovington road   | South towards Watton                                    | There is a multitude of birds nesting there owls hawks, deer,   | Need to find a viewpoint |
| Ovington Road   | South   | Panoramic View to Village Boundary to Watton  | Need to find a viewpoint |
| Ovington Road   | South   | Open view to boundary of the village with Watton  | Need to find a viewpoint |
| Ovington Road   | South-west-ish on approach towards Bell Lane crossroads | View of Bristow's Mill  |                          |
| The Terrace towards the church  | North   | Historical  | Need to find a viewpoint |
| Just south of CV4 if on the road going towards Saham Hills just past the beet store looking in a NW ish direction across the fields towards the wood and poplar trees | NW ish  | There is an open view across the fields to the edge of the Saham hills. It is typical of the edge of a Norfolk village and should be preserved and not spoilt by further development. | Broaden CV4?             |
|   | Towards the Mere  |   | Viewpoint?               |
| Hills Road, between 1 and 51  | West  | Open views. Sunsets   | Compare with CV5         |
| From the bend Swaffham in the road at the junction of the Cressingham road  | Looking south   | Because it gently slopes down to pasture with hedge rows  | Similar to CV3           |
| CV5 + 90 degree to the right  |   | To keep the countryside view of the village   |                          |
| Junction Hills Road/Ploughboy Lane  | Looking south south-west                                | Open field and small mere in centre of village gives a sense of spaciousness rather than being hemmed in by housing as is the rest of Hills Road in this area.                        |                          |
