

SITE ALLOCATIONS POTENTIAL SITES

THREATS	OPPORTUNITIES
<ul style="list-style-type: none">• Density of sites in the central location. This may lead to traffic congestion, and increase the flooding (re sites 1 - 4 - 5 - 6 - 7 - 8);• Increased traffic problems on inadequate roads;• Increase flood risk as has been seen 1987, 2004, 2016;• Overloaded sewers feeding a treatment works which already handles half of Watton properties;• School already unable to provide placement for village children;• Severely limited employment potential;• Saham Road junction with Watton High Street already a problem at peak periods (full occupation of the 85 houses on Saham Road will lead to further problems without any...{?});• Lack of footpaths pavements for many of the proposed sites	<ul style="list-style-type: none">• For affordable homes for village connected people;• Decent public transport if roads were capable of carrying increased usage and vehicle size;• Attract funding for school expansion;• More variety of activity at WCCC;• For full time post office and shop;• To provide pavements / walkways footpaths to enhance the quality of life;• Community enhancement;• Parking for proposed amenities
